

**\* \* \* NOTICE TO OLD BRIDGE TOWNSHIP RESIDENTS \* \* \***

**CONSTRUCTION TO TAKE PLACE ON SPRING VALLEY ROAD DUE  
TO OBMUA CROSSROADS REGIONAL SEWER WORK PERFORMED  
BY NORTHEAST REMSCO CONSTRUCTION, INC.**

Northeast Remsco Construction was contracted by the Old Bridge Municipal Utilities Authority (OBMUA) to install new sewers on Spring Valley Road. The work on Spring Valley Road will consist of open cut and trenchless installation methods between Jocama and Sanctuary Boulevards.

The work along Spring Valley Road is scheduled to commence the week of April 1 and is expected to take approximately three (3) months. During this time, Spring Valley Road will be closed to through traffic between Jocama Blvd and Sanctuary Blvd. **All traffic will be detoured around the road closure to Trans-Old Bridge Road and Point of Woods Drive. RESIDENTS OF THE PLAZA GRANDE DEVELOPMENT SHOULD BE PREPARED TO FOLLOW THIS DETOUR. SIGNS WILL BE INSTALLED TO DIRECT TRAFFIC.** The Old Bridge Police Department will be present for traffic control during initial construction operations and as required during the course of construction.

It is critical that there are no vehicles or other obstructions present in Spring Valley Road at the time of construction. **It is therefore required that all vehicles and other obstructions be relocated off of Spring Valley Road between Jocama Boulevard and Sanctuary Boulevard no later than 6:00 am April 1, 2013.**

The Contractor's 24-hour emergency contact is Jeff Clayton, who may be reached via cell (732) 522-9010 for reporting construction-related complaints or problems. On weekdays between the hours of 8:30 a.m. and 4:00 p.m., please call the OBMUA at 732-679-8565 or R3M Engineering at 732-679-7100 to report construction-related complaints or problems, or if you have construction-related questions.

We thank you in advance for your patience and cooperation during the construction of this important infrastructure improvement.
